DEFINITIONS

ACCIDENT means a sudden, unexpected event that results in Injury to the Covered Person.

INJURY means bodily Injury caused by the direct result of an Accident occurring while the Policy is in force as to the person whose Injury is the basis of the claim which results, directly and independently of all other causes, in a Covered Loss.

MEDICALLY NECESSARY means a treatment, service or supply that is:

1) required to treat an Injury;

2) prescribed or ordered by a Physician or furnished by a Hospital;

3) performed in the least costly setting required by the condition;

4) consistent with the medical and surgical practices prevailing in the area for treatment of the condition at the time rendered.

The purchasing or renting air conditioners; air purifiers, motorized transportation equipment, escalators or elevators in private homes, swimming pools or supplies for them; and general exercise equipment are not considered Medically Necessary.

A service or supply may not be Medically Necessary if a less intensive or more appropriate diagnostic or treatment alternative could have been used. We may, at Our discretion, consider the cost of the alternative to be the Covered Expense.

USUAL AND CUSTOMARY CHARGES means the average amount charged by most providers for treatment, service or supplies in the geographic area where the treatment, service or supply is provided.

PARENTS/GUARDIANS - WHY YOU SHOULD ENROLL NOW

- When a covered accident happens, benefits are paid directly to you – not the hospital or doctor – to use any way you want. Pay for medical bills, groceries, lost time at work – anything.
- Even if you have health insurance, benefits can help cover your deductible, copayment, and other out-of-pocket costs.
- Accident benefits are preset and are paid, regardless of any other insurance you have.
- No health questions asked – everyone qualifies.
- Rates cannot increase during the year.
